Full Stack Developer with over 2 years of hands-on experience in JavaScript, React, Docker, and Google Cloud. Proven ability to optimize cloud-native solutions, resolve critical bugs, and implement enhancements, improving platform efficiency. Strong collaborative skills with expertise in agile methodologies and CI/CD processes.

Work Experience

Full Stack Developer Intern

MUNCHI

04/2024 - 07/2024

- Improved Munchi's cloud-native solution using JavaScript, React, Docker, and Google Cloud.
- Managed CI/CD deployment of storefront updates with Docker and Google Cloud.
- Collaborated with the business team to translate user requirements into technical solutions, streamlining platform integration.
- Employed agile methods for effective project management.

Volunteer Full Stack Developer

JUNCTION

05/2023 - 01/2024

- Improved cloud-native features, resolved 6 critical bugs, and implemented 2 enhancements for the Junction 2023 hackathon platform using JavaScript, React, MongoDB, Docker, and Git, leading to a more user-friendly and efficient platform.

Full Stack & DevOps Training

INTEGRIFY ACADEMY

06/2022 - 11/2022

- Collaborated with industry experts to complete 3 hands-on projects, gaining real-world experience and practical knowledge in full stack development and DevOps.

- Adaptability
- Analytical thinking
- Communication
- Problem-solving
- Teamwork

Databases

- MongoDB
- MySQL
- PostgreSQL

Frameworks

- Node.js
- React
- ReactNative
- Springboot

Tools

- Docker
- Git

Cloud technologies

- GoogleCloud

Projects

Stock Management Application

Developed a full-stack inventory management system using Next.js, GraphQL, and MongoDB. Features include real-time stock tracking, analytics dashboard, automated notifications, and CSV export. Implemented Docker containerization and deployed on Vercel with a responsive design. Visit the project **here**.

Full Stack E-commerce Application

Full-stack e-commerce application built with JavaScript, React, Next.js and MongoDB. The app includes features like product browsing, shopping cart, and an admin dashboard. Vist the project **here**.

Education

Business Information Technology in Software Development

HAAGA-HELIA UNIVERSITY
OF APPLIED SCIENCES
Helsinki, Finland
08/2023 - 06/2024

Contributed to student projects collaborating with Finnish companies, specializing in both front-end and back-end tasks while gaining valuable project management expertise.
