Full Stack Developer with over 2 years of hands-on experience in JavaScript, React, Docker, and Google Cloud. Proven ability to optimize cloud-native solutions, resolve critical bugs, and implement enhancements, improving platform efficiency. Strong collaborative skills with expertise in agile methodologies and CI/CD processes.

WORK EXPERIENCE

Full Stack Developer Intern

MUNCHI

04/2024 - 07/2024

- Improved Munchi's cloud-native solution using JavaScript, React, Docker, and Google Cloud.
- Managed CI/CD deployment of storefront updates with Docker and Google Cloud.
- Collaborated with the business team to translate user requirements into technical solutions, streamlining platform integration.
- Employed agile methods for effective project management.

Volunteer Full Stack Developer

JUNCTION

05/2023 - 01/2024

- Improved cloud-native features, resolved 6 critical bugs, and implemented 2 enhancements for the Junction 2023 hackathon platform using JavaScript, React, MongoDB, Docker, and Git, leading to a more user-friendly and efficient platform.

Full Stack & DevOps Training

INTEGRIFY ACADEMY

06/2022 - 11/2022

- Collaborated with industry experts to complete 3 hands-on projects, gaining real-world experience and practical knowledge in full stack development and DevOps.
